James Newman

Principal

Monday 5th October 2020

Dear Parent,

We have been advised that there has been a confirmed case of COVID-19 within Westlands Academy. This involves a member of staff who is not classroom based and has no contact with students on a daily basis.

We have carried out a full risk assessment with the Public Health agencies and the measures that we have in place within the Academy mean that no other staff member or students need to self-isolate at present.

No child has been identified as being in close contact and therefore no one needs to make any changes to their usual routine, including school attendance.

The most common symptoms of COVID-19 are recent onset of a new continuous cough and/or a high temperature and/or a loss of, or change in, normal sense of taste or smell (anosmia). If your child, or anyone in your household develops these symptoms, your whole household must remain at home and not go to work, school or public areas. You should arrange testing for the person who has developed symptoms. When the result is known further advice will be available.

Testing can be arranged by calling 119 or via the NHS website: nhs.uk/coronavirus

How to stop COVID-19 spreading

There are things we can all do to help reduce the risk of you and anyone you live with getting ill with COVID-19:

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further information

Further information is available at nhs.uk/coronavirus

Yours sincerely

James Newman
Principal

Until 2022
